Discussion Questions for Workforce Education and Training (WET) Consumer and Family Member Employment (CFME) Advisory Committee Meeting October 21, 2015

1. Are you aware of any major legislative and/or policy changes within the past two years that may have or will alter the need or demand for certain types of mental health professions or services?
2. Are there any currently funded statewide WET CFME programs that you believe should either have reduced or increased funding? If so, why and by how much funding?
3. Are there any activities that you believe would increase or support the Consumer, Family Member, and Parent Caregiver workforce that are not currently funded by WET (not including peer certification) that you believe should be further explored? If so, why?
