Interested Parties:

The enclosed California Health Professions Pipeline Intervention Programs listing was created by the Office of Statewide Health Planning and Development's (OSHPD) Healthcare Workforce Development Division (HWDD). The information identifies education and support early intervention activities that assist health education programs and employers throughout the state.

Specifically, these programs:

- ❖ Include community partnerships consisting of, but not limited to, middle/high schools, technical schools, postsecondary education entities, healthcare employers, community-based organizations, health professional organizations, foundations, and others,
- ❖ Assist in the coordination and communication with other health education and training pipeline programs throughout the state, and
- ❖ Empower students to choose and successfully pursue health careers that best help them realize their professional interests.

The HWDD staff used a variety of resources to collect the information. If you notice errors in the directory, or know of other pipeline intervention programs, please contact:
