

## Sports-Related Concussions, 2005 - 2015 – Inpatient and Emergency Department (ED)\*

\*Inpatient discharges originated in the ED only. International Classification of Diseases, (ICD-10-CM) external cause of injury/morbidity codes were used for encounters on or after October 1, 2015 and do not necessarily represent the same circumstances or methods of injury identified by the ICD-9-CM codes used for 2010 - September 30, 2015. There is not a direct comparison/crosswalk of ICD-9-CM codes to ICD-10-CM codes.
