51 Hospice- Medical facility (certified) providing hospice level of care

DISCUSSION

This category includes patients discharged or transferred to any medical facility for hospice care only.

Please refer to OSHPD's definition of a discharge on page 7A to determine if a discharge took place. A patient who is in an acute bed and is transferred within your facility to another acute bed designated for hospice care does not meet the definition of a discharge. This should be reported as one continuous acute stay.

A hospice program is a centrally administered program of palliative and support services which provide psychological, social and spiritual care for dying persons and their families, focusing on pain and symptom control for the patient.

This category includes the following discharges or transfers:

- Hospice Medical Facility *
- Inpatient respite *

ADDITIONAL DISCUSSION FOR ALL CATEGORIES

- **Same Hospital ED or AS visit:** For inpatients sent to the same facility's Emergency Department or Ambulatory Surgery, please see the definition of a discharge in the Reporting Requirement section [97212 (e)] of this manual to determine if a discharge took place.
- NUBC guidelines states that when identifying the appropriate disposition to “code to the highest level of care that is known.”
- **Skilled Nursing Bed Hold Days:** Skilled nursing **bed hold days are not reported** to OSHPD. A patient cannot be reported in two levels of care at the same time.
- **Mode of Transportation:** The mode of transporting a patient from one health facility to another is irrelevant to the patient's disposition.
- **Billing Requirements:** The Data Reporting Requirements in California Code of Regulations cannot deal effectively with every billing requirement because the variations and rules are not consistent among insurers and because they continually change.

The hospital should always apply the reporting requirements as specified in the California Code of Regulations, Title 22, Division 7, Chapter 10, Article 8, regardless of which reimbursement system is involved.
