* *Reference: AB 1382, Chapter 599, Statutes of 2013 Health and Safety Code, Section 128736 and 128737. Data element names have been updated to reflect ICD-10 terminology. The update is in terminology only, the two terms have the same meaning. The content of the data elements is not changed. These changes will not cause any confusion as the statutory changes were made to follow nomenclature of the industry. Because the terminology update does not change the proposed ICD-10 reporting requirements the changes are nonsubstantive changes as defined in Title 1, CCR, Section 40.*
