

Health Professions Education Foundation

Report
2008-10

The Foundation would like to thank the following funders and boards for their generous support:

Board of Behavioral Science

Board of Psychology

Board of Registered Nursing

Board of Vocational Nurse & Psychiatric Technicians

Irvine Regional Hospital & Medical Center

Kaiser Permanente

Medical Board of California

Orange County First Five Commission

Osteopathic Medical Board of California

PacifiCare/UnitedHealthcare

The California Endowment

The California Wellness Foundation

Vitamin Cases Consumer Settlement Fund

A message from the President

Gary Gitnick, M.D.
President
Board of Trustees
Health Professions Education Foundation

On behalf of the Board of Trustees, it is my privilege to present the Health Professions Education Foundation's Report for 2008 – 2010.

During the past three years, the Foundation has been actively engaged in increasing access to healthcare services via our scholarships and loan repayments to students and health providers. We have implemented two new loan repayment programs for mental health practitioners and pediatric specialists. In its inaugural cycle, the Mental Health Loan Assumption program received more than 1,250 applications and was only able to award 275 loan repayments. Our other programs are similarly in high demand – from 2008 to 2010 the Foundation was able to increase its funding by more than \$24 million through grants and licensure fees to meet this growing demand, awarding 2,588 health professional students and providers.

Even so, as the debate over healthcare reform continues, the Foundation continues to make significant strides that contribute to improved healthcare access:

- Including additional eligible professions such as the Clinical Nurse Specialists, Osteopathic physicians and surgeons, as well as Geriatric Specialists to the list of eligible scholarship and loan repayment applicants.
- The Associate Degree Nursing Scholarship, Bachelor of Science Nursing Scholarship, and Loan Repayment Programs inclusion of veterans when determining eligible candidates.
- Developing the Mental Health Loan Assumption Program in partnership with California's Department of Mental Health.
- The Foundation received a \$945,000 grant from the Orange County First Five Commission to develop and implement a pediatric specialties loan repayment program.

The Board of Trustees and I look forward to partnering with you to support health professional students and graduates who practice direct patient care in medically underserved areas. I invite you to visit the Health Professions Education Foundation's Website at: www.healthprofessions.ca.gov, and participate in "Giving Golden Opportunities!"

A message from the Director

The last two years have marked an increased interest by policy makers to reform the country and state's healthcare system. The debate continues about program expansions; financing options; costs to individuals, employers and other stakeholders; individual mandates; and eligibility. These issues resonate in California where almost 7 million Californians are presently uninsured and residents in 56 of California's 58 counties live in a medically underserved area.

One issue that receives bi-partisan support from policy makers, researchers, academia, employers, patients and other stakeholders is the incongruence between supply and demand for healthcare providers. California is facing a serious shortage of allied health workers, nurses and primary care doctors and the demand will continue to outpace

supply as our state becomes more diverse both in racial and ethnic composition, age and geographic location.

The Health Professions Education Foundation's mission of expanding access to care for California's medically underserved communities by providing scholarships and loan repayments is making significant strides. Since the Foundation's inception, it has awarded more than \$39 million to 4,025 students and healthcare providers practicing direct patient care in 56 of California's 58 counties.

As the nation debates healthcare reform, I encourage you to support one tried and tested solution: the Foundation's programs which encourage health professionals to practice in medically underserved communities thereby increasing access to care, healthcare quality and outcomes.

David M. Carlisle M.D., Ph.D.
Director
Office of Statewide Health Planning & Development

An introduction to the

Health Professions Education Foundation

Mission

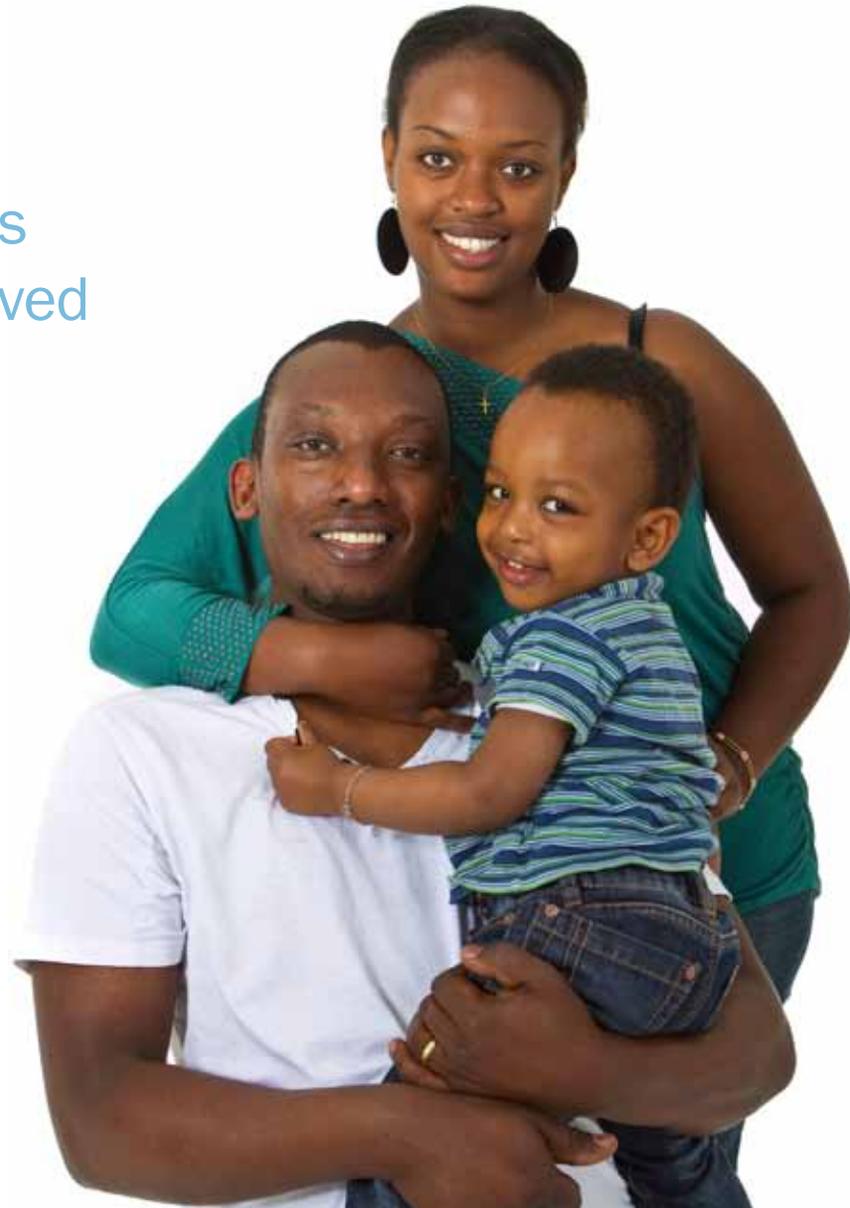

The Health Professions Education Foundation provides scholarships, loan repayments, and programs to health professional students and graduates who are dedicated to providing direct patient care in California's medically underserved communities.

History

Established in 1987, the Foundation is the state's only non-profit foundation statutorily created to provide scholarships, loan repayments, and programs to health professional students and graduates throughout California who agree to practice in medically underserved areas. The Foundation, housed in the Office of Statewide Health Planning and Development, administers various programs across the healthcare delivery spectrum targeting allied health, nursing, mental health, medical, and other healthcare practitioners. Its outstanding track record of delivering healthcare providers to underserved areas of California has resulted in approximately 4,025 scholarship and loan repayment awards totaling more than \$39 million to students and recent graduates practicing in 55 of California's 58 counties since December 1990.

Programs

Almost 12 million Californians reside in a medically underserved community.

Allied Healthcare

Scholarship Program

Established in 1993, this program is funded through Kaiser Permanente, grants and contributions from public and private agencies, foundations, corporations, and individuals. These funds seek to increase the number of medical assistants, pharmacy, imaging, and radiology technicians, as well as a variety of other allied healthcare professionals in the medical field.

- The Allied Healthcare Program awards professionals that practice direct patient care via scholarships of up to \$4,000 per year in exchange for 100 volunteer hours or one year of service in a medically underserved area.

Vocational Nurses

Scholarship and Loan Repayment Programs

These programs are funded through a surcharge on biennial licensure renewals:

- Vocational Nurse Scholarships increase the number of vocational nurses via scholarships up to \$4,000 per year for two years of service.
- Licensed Vocational Nurse to Associate Degree Nursing Scholarships increase the number of licensed vocational nurses who pursue an associate degree in nursing via scholarships up to \$8,000 for two years of service.
- Licensed Vocational Nurse Loan Repayments increase the number of licensed vocational nurses via loan repayments up to \$6,000 for two years of service working in a medically underserved area.

Registered Nurses

Scholarship and Loan Repayment Programs

These programs are funded through a surcharge on biennial licensure renewals:

- Associate Degree Nursing Scholarships increase the number of nurses via scholarships up to \$10,000 per year.
- Bachelor of Science in Nursing Scholarships increase the number of nurses working in medically underserved areas via scholarships up to \$13,000 per academic year for a two year service commitment.
- Bachelor of Science in Nursing Repayments increase the number of nurses working in medically underserved areas via loan repayments up to \$19,000 for a four-year service commitment.

Mental Health Practitioners

Loan Repayment Programs

Awards are funded through a surcharge on biennial licensure renewals for Psychologists, Marriage and Family Therapists, and Licensed Clinical Social Workers as well as Mental Health Services Act (MHSA):

- Licensed Mental Health Services Provider Education Program increases the number of licensed mental health providers available to provide direct patient care in a publicly funded or public mental health facility, a non-profit private mental health facility, or in a mental health professions shortage area via loan repayments up to \$15,000 for two years of service.
- Mental Health Loan Assumption Program increases the number of mental health providers serving in a hard-to-fill position in the public mental health system via loan repayments up to \$10,000 in exchange for one year of service in a medically underserved area.

Other Health Professions

Scholarship and Loan Repayment Programs

Awards are funded through grants and contributions from public and private agencies, foundations, corporations, and individuals:

- Health Professions Education Scholarships increase the number of Dentists, Dental Hygienists, Nurse Practitioners, Certified Nurse Midwives, and Physician Assistants via scholarships up to \$10,000 for two years of service.
- Health Professions Education Loan Repayments increase the number of Dentists, Dental Hygienists, Nurse Practitioners, Certified Nurse Midwives, and Physician Assistants via loan repayments up to \$20,000 for two years of service.

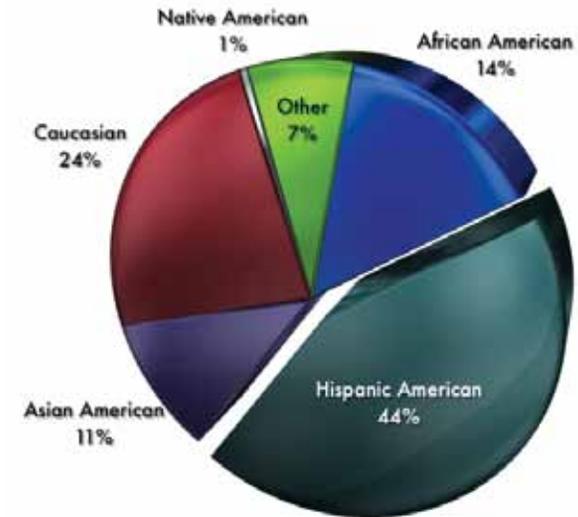

Physicians

Awards are funded through a surcharge on biennial licensure renewals for osteopathic and allopathic physicians, funds from the Managed Care Administrative Fines and Penalties Fund as well as grants and private donations:

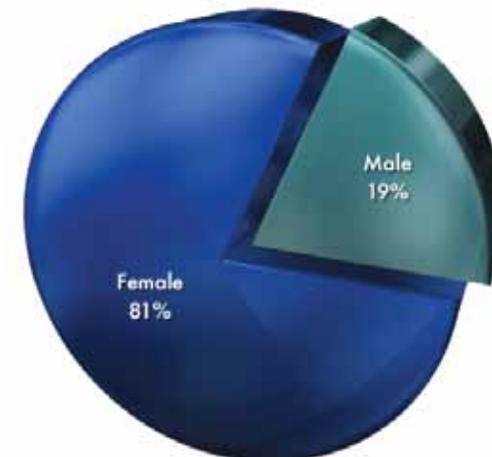

- Steven M. Thompson Physician Corps Loan Repayment Program increases the numbers of culturally competent physicians via loan repayments up to \$105,000 in exchange for three years of service in a medically underserved area.
- Orange County Pediatrics Specialties Physician Loan Repayment Program increases the number of pediatric specialists in Orange County via loan repayment up to \$125,000 in exchange for three years of service in a medically underserved area.

Note: The Mental Health Loan Assumption Program December 10, 2010 cycle awards are not featured in this table.

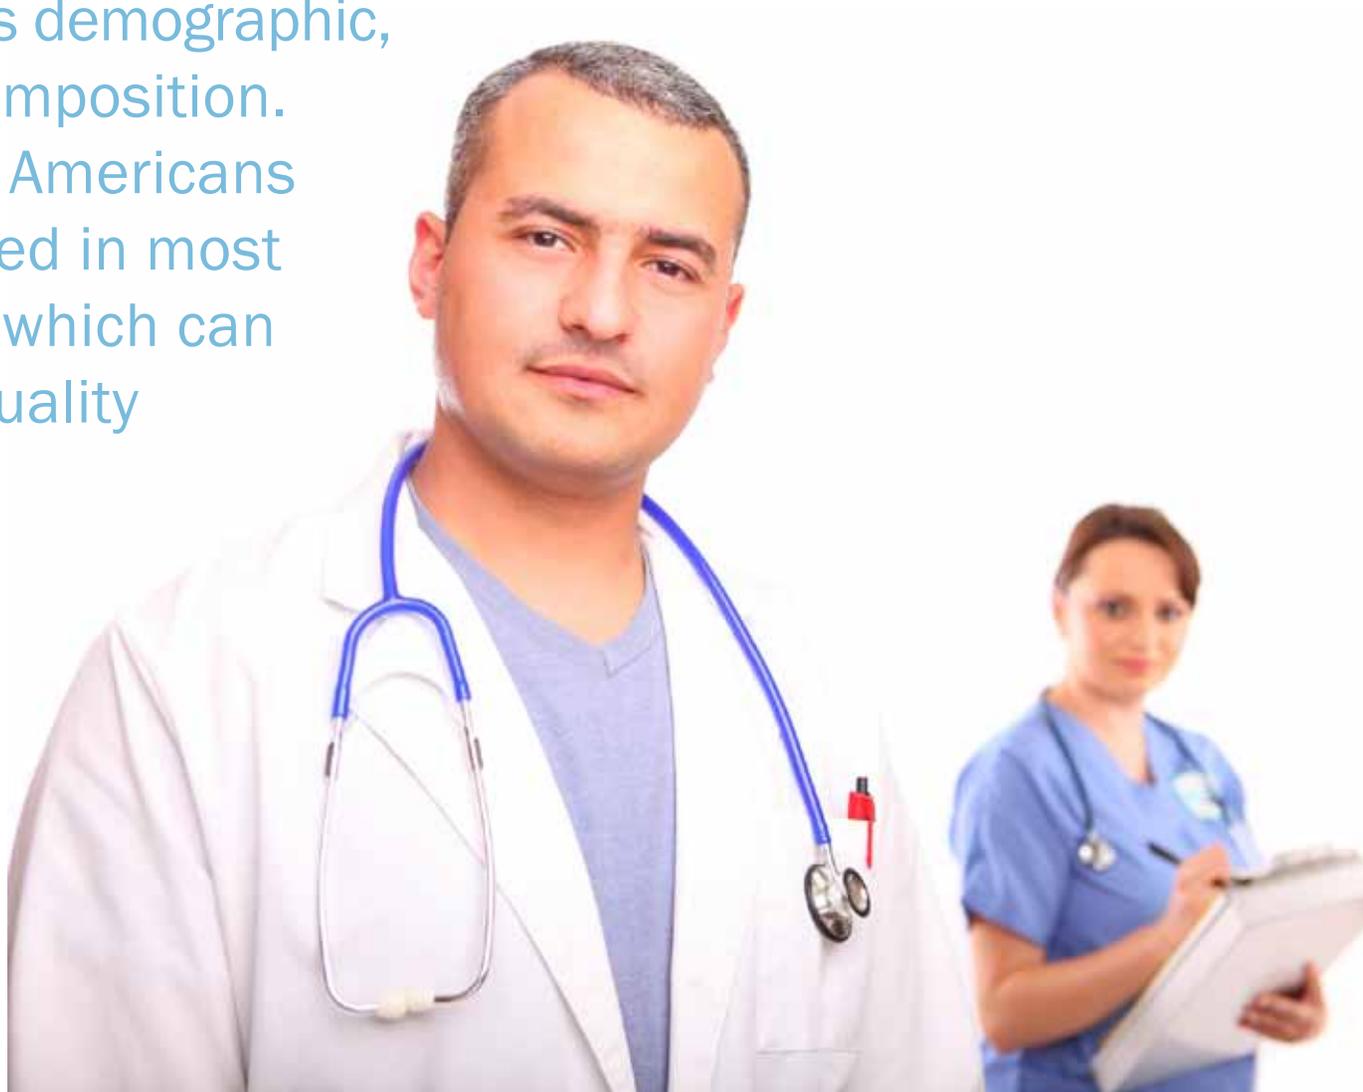

The limited supply of physicians entering primary care practice is impacting the staffing of community clinics. Clinics are increasingly relying on physician assistants and nurse practitioners as care providers.

Funding

California's health professionals do not reflect the state's demographic, racial and ethnic composition. Latinos and African Americans are underrepresented in most health professions, which can negatively impact quality of care.

The Health Professions Education Foundation is positioned to address its mission of improving healthcare in underserved areas of California. With new leadership and a refined focus, we stand ready to increase access to healthcare services.

There have been major developments in the Foundation's portfolio in 2008, 2009, and 2010. In 2008, the Foundation received \$2.5 million from the Mental Health Services Act (MHSA) to implement the Mental Health Loan Assumption Program, in partnership with California's Department of Mental Health. In addition, the California State Legislature and Governor Arnold Schwarzenegger increased funding for registered nurse scholarships and loan repayments from \$1.2 million to \$1.7 million. The Foundation also secured a \$2.5 million grant from PacifiCare/United Healthcare to fund various programs. In 2009, the California State Legislature and Governor Schwarzenegger created stable sources of revenue to the Steven M. Thompson Physicians Loan Repayment Program via a \$25 mandatory licensing surcharge to physicians and funding from the Managed Care Administrative Fines and Penalties Fund totaling \$1.5 million and \$1 million, respectively. In 2010, the Foundation received a \$945,000 grant from the Orange County First Five Commission to develop and implement a pediatric specialties physician loan repayment program. The Foundation would also like to honor the Board of Behavioral Science, the Board of Psychology, the Board of Registered Nursing, the Board of Vocational Nurse & Psychiatric Technicians, the Irvine Regional Hospital & Medical Center, Kaiser Permanente, the Medical Board of California, the Osteopathic Medical Board of California, The California Endowment, The California Wellness Foundation, and Vitamin Cases Consumer Settlement Fund for their generous support throughout the years.

The Foundation is staying on course, deepening its relationships with current funders, expanding the number of potential partners, and building support for new programs funded by permanent and stable sources of revenue. We encourage you to give the Foundation your financial support. Your contribution will have an immediate impact on the health of underserved communities throughout the state. Thank you for your continued support of the mission and vision of the Health Professions Education Foundation.

Lupe Alonzo-Diaz, Executive Director

Giving Golden Opportunities

California ranks near the bottom of all states in the number of registered nurses per capita even though the number of practicing nurses nearly doubled between 1980 and 2008.

Donors can create an enduring charitable legacy with gifts that support the expansion of healthcare services to underserved communities in California. Your generous gift will allow the Foundation to continue giving golden opportunities to students and recent graduates who will provide direct care to communities in most need.

Donors may select among the following options:

- Unrestricted funds provide the most flexibility, enabling the Foundation to respond to program and healthcare workforce needs as they emerge.
- Restricted funds are established by donors to reflect their personal charitable interest and may be delineated by geographic area, specific population, or interest.
- Corporate charitable gifts allow companies to meet philanthropic goals while saving the cost of in-house management.

There is a wide range of options for giving. For example, gifts of cash, stock and other securities, and real estate may be donated. Requests may also be passed on to the Foundation through a donor's last will and testament. In addition, a life income gift or charitable trust may be established to provide sustained or future funding. Gifts of professional services, equipment, and conference facilities are also greatly appreciated.

Advantages to donors include:

- Professional Management
- Tax Deductible
- Grant Making
- Public Accountability

Making an Impact

In 2001, roughly 16 percent of California's adults were diagnosed with a mental disorder; as such, it is important to assess whether there is a sufficient mental health workforce.

During my high school years I began to realize the importance of having an education. Coming from an impoverished family background, this was something that was not encouraged. I thank those in the educational system that recognized that I had extraordinary potential and supported me. I love the healthcare field and decided at that time that I wanted to pursue a career in nursing.

It wasn't until my employer announced that there was support offered through the Health Professions Education Foundation that I realized that paying off the loan to get my Bachelor's degree in nursing did not have to be burdensome with an expensive loan and interest payments. I was a bit intimidated at first because I thought that I could never be recognized for working in the nursing field. When I received the award letter I was overwhelmed with joy and gratitude.

Participation in this program has helped to improved [sic] my lifestyle and has inspired my desire for further career advancement. I am proud that I can offer a higher academic level of care to my patients and support to my co-workers.

Sincerely,

M.A. Perez, B.S.N.

My name is Alfredo Huerta. I'm a Licensed Clinical Social Worker and have been for eight years. I work for the Riverside County Department of Mental Health, the Cultural Competence, Outreach and Engagement Program. I love my job. I work with low socio-economic level families and communities. The majority of the families I work for face multiple barriers that limit their access to quality mental health services. Among some of these obstacles are language, transportation, immigration issues, and high levels of stigma associated with mental illness.

Every time I have an opportunity to speak in public to the youth and families of our communities about mental health, I also take advantage of the occasion to talk about careers in mental health, the critical need for bi-lingual and bi-cultural professionals and how awesome programs like the Loan Assumption Program can help with the cost of education.

Thanks so much for creating a program like the Loan Assumption Award Program.

Sincerely,

A. Huerta, L.C.S.W.

Awardees 2008-10

California currently employs more than 605,000 allied health workers in a wide range of clinical, administrative, and support positions - almost half of that total is comprised of community health workers, medical assistants, certified nurse assistants, and home health aides.

Statewide shortages of healthcare providers currently exist in several professions, and are projected to increase dramatically due to population growth and aging.

Audit Report 2008-10

Fewer African American and Latino men matriculated in California medical schools (MD and DO) in 2007 compared to 1995.

Audit Reports

The following information is summarized from the annual financial statements, audited by Gilbert Associates, Inc. which are available in the Foundation administrative office or on the web:

Audit Report 2008-2009 <http://www.transparency.ca.gov/Common/Document.ashx?ID=4482>

Audit Report 2010 <http://www.transparency.ca.gov/Common/Document.ashx?ID=11682>
