

**Peer Personnel Training and Placement  
RFA #14-5543 Questions and Answers**

**Question 1:** Are there any start-up costs available to organizations to cover project costs in the first quarter?

**Answer:** This is a performance based contract in which, if awarded, the contractor will be reimbursed based on completion of services per budget line item as identified in Page 8, section 5 “Cost Detail Format and Requirements” of the RFA. As such, there are no payments made to the contractor prior to the completion of services per budget line item.

**Question 2:** Are there any fees associated with this RFA?

**Answer:** There are no fees associated with submitting the RFA other than any costs incurred while developing and mailing the application. As stated on page 12, item I of the RFA, “Costs incurred for developing applications and in anticipation of award of the Grant Agreement are entirely the responsibility of the applicant and shall not be charged to the State of California.”
