A. Background/Mission

Pursuant to the Song-Brown Health Care Workforce Training Act, Health & Safety Code Sections 128200, et. seq., the California Healthcare Workforce Policy Commission (Commission) will consider applications to support the training of family nurse practitioner (FNP) and primary care physician assistant (PA) training programs. After review of the applications, the Commission makes recommendations for grant awards to the Director of the Office of Statewide Health Planning and Development (OSHPD).

OSHPD works to increase and diversify California’s health workforce through the Healthcare Workforce Development Division (HWDD). The Song-Brown program funds institutions that train primary care health professionals to provide healthcare in California’s medically underserved areas. Competitive proposals demonstrate a commitment to Song-Brown goals and demonstrated success in meeting the three statutory priorities:

- Attracting and admitting underrepresented minorities and those from underserved communities
- Training students in underserved areas
- Placing graduates in underserved areas

B. Eligible Applicants, Available Funding, and Award Levels

C. Initiating an Application

The applicant is responsible for providing all necessary information and ensuring that the information contained in the application is accurate.

Applicants must register and submit all applications through the web-based eApp, https://eapp.oshpd.ca.gov/funding/.

You must register as a new user or enter an existing username and password. The eApp Technical Assistance Guide contains eApp information, including how to register and complete your application. Refer to Section J for more information.

D. Budget Restrictions

These funds are for the general education and training of students only. Applicants do not submit a proposed budget, as OSHPD will pay Grantees on a capitated rate per student. Awardees shall use these funds to expand primary care services. Awardees shall not use these funds to supplant existing state or local funds to provide primary care services.
OSHPD does not allow indirect costs for capitation funding.

E. Evaluation and Scoring Procedures

1. Review Process
   During the review process, Song-Brown staff will verify submission of all required information as specified in this Grant Guide and score applications using only the established evaluation and scoring criteria. Staff will advise the Commission on application revisions. The most competitive applicants are those most consistent with the intent of the grant opportunity.
   If, in the opinion of OSHPD, an application contains false or misleading information, or provides documentation that does not support an attribute or condition claimed, OSHPD will reject the application. OSHPD reserves the right to reject any or all applications or to reduce the amount funded to an applicant. An applicant may not change its application after the application deadline.

2. Evaluation and Scoring
   OSHPD will calculate a quantitative score for each application using the information provided in the application.
   OSHPD calculates scores for Evaluation Criteria 1.1, 1.2, 1.3, and 2.2 in two parts, by percentage and on a bell curve. To see how OSHPD calculates these scores, go to https://oshpd.ca.gov/ml/v1/resources/document?rs:path=/Loan-Repayments-Scholarships-Grants/Documents/Song-Brown/FNP-PA-Application-Scoring-Explanation.pdf.

3. Presentations
   After reviewing and scoring applications, Song-Brown staff will identify a select number of programs to present to the Commission at the November 2020 Commission meeting. The Program Director, or other authorized representative, will provide a summary of the training program, an overview of successfully demonstrated strategies, and outcomes data for any current pipeline programs. The presentations serve to share information and best practices across programs. Applicants' presentations, or lack thereof, will not influence their final scores. Please refer to Attachment G for Funding Presentation Guidelines. Song-Brown encourages all applicants to attend the Commission meeting. Meeting attendance is voluntary and provides a valuable opportunity for programs to learn from presenters and engage in any discussions related to future funding. The meeting also provides an opportunity to address the
F. Final Selections

During the funding meeting, the Commission will make award recommendations based on which applications best meet the Song-Brown goals and statutory priorities. Once the OSHPD Director concurs with the Commission award recommendations, OSHPD will announce Grantees.

3. If your program requires approval to contract from a coordinating authority, please inform the authority of the terms and conditions contained in the Sample Grant Agreement. OSHPD considers that the submission of an application implies express acceptance of the terms. All applicants must agree to the terms and conditions prior to receiving funds. OSHPD will not make changes to the terms and conditions specified in the Sample Grant Agreement.

4. Grantees shall use the funding established pursuant to this act to expand primary care services. Grantees shall not use these funds to supplant existing state or local funds to provide primary care services.

Attachment B: Authorizing Statute

Health and Safety Code Section 128200. (a) This article shall be known and may be cited as the Song-Brown Health Care Workforce Training Act.

(b) (1) The Legislature hereby finds and declares that physicians engaged in family medicine are in very short supply in California. The current emphasis placed on specialization in medical education has resulted in a shortage of physicians trained to provide comprehensive primary health care to families. The Legislature hereby declares that it regards the furtherance of a greater supply of competent family physicians to be a public purpose of great importance and further declares the establishment of the program pursuant to this article to be a desirable, necessary, and economical method of increasing the number of family physicians to provide needed medical services to the people of California. The Legislature further declares that it is to the benefit of the state to assist in increasing the number of competent family physicians graduated by colleges and universities of this state to provide primary health care services to families within the state.

(2) The Legislature finds that the shortage of family physicians can be improved by the placing of a higher priority by public and private medical schools, hospitals, and other health care delivery systems in this state, on the recruitment and improved training of medical students and residents to meet the need for family physicians. To help accomplish this goal, each medical school in California is encouraged to organize a strong family medicine program or department. It is the intent of the Legislature that the programs or departments be headed by a physician who possesses specialty certification in the field of family medicine and has broad clinical experience in the field of family medicine.

(3) The Legislature further finds that encouraging the training of primary care physician’s assistants and primary care nurse practitioners will assist in making primary health care services more accessible to the citizenry, and will, in conjunction with the training of family physicians, lead to an improved health care delivery system in California.

(4) Community hospitals in general and rural community hospitals in particular, as well as other health care delivery systems, are encouraged to develop family medicine residencies in affiliation or association with accredited medical schools, to help meet the need for family physicians in geographical areas of the state with recognized family primary health care needs. Utilization of expanded resources beyond university-based teaching hospitals should be emphasized, including facilities in rural areas wherever possible.

(5) The Legislature also finds and declares that nurses are in very short supply in California. The Legislature hereby declares that it regards the furtherance of a greater supply of nurses to be a public purpose of great importance and further declares the expansion of the program pursuant to this article to include nurses to be a desirable, necessary, and economical method of increasing the number of nurses to provide needed nursing services to the people of California.

(6) It is the intent of the Legislature to provide for a program designed primarily to increase the number of students and residents receiving quality education and training in the primary care specialties of family medicine, internal medicine, obstetrics and
gynecology, and pediatrics and as primary care physician's assistants, primary care nurse practitioners, and registered nurses and to maximize the delivery of primary care family physician services to specific areas of California where there is a recognized unmet priority need. This program is intended to be implemented through contracts with accredited medical schools, teaching health centers, programs that train primary care physician's assistants, programs that train primary care nurse practitioners, programs that train registered nurses, hospitals, and other health care delivery systems based on per-student or per-resident capitation formulas. It is further intended by the Legislature that the programs will be professionally and administratively accountable so that the maximum cost-effectiveness will be achieved in meeting the professional training standards and criteria set forth in this article and Article 2 (commencing with Section 128250).

§128205. As used in this article, and Article 2 (commencing with Section 128250), the following terms mean:

(a) "Family physician" means a primary care physician who is prepared to and renders continued comprehensive and preventative health care services to families and who has received specialized training in an approved family medicine residency for three years after graduation from an accredited medical school.

(b) "Primary care physician" means a physician who is prepared to and renders continued comprehensive and preventative health care services, and has received specialized training in the areas of internal medicine, obstetrics and gynecology, or pediatrics.

(c) "Associated" and "affiliated" mean that relationship that exists by virtue of a formal written agreement between a hospital or other health care delivery system and an approved medical school that pertains to the primary care or family medicine training program for which state contract funds are sought.

(d) "Commission" means the California Healthcare Workforce Policy Commission.

(e) "Programs that train primary care physician's assistants" means a program that has been approved for the training of primary care physician assistants pursuant to Section 3513 of the Business and Professions Code.

(f) "Programs that train primary care nurse practitioners" means a program that is operated by a California school of medicine or nursing, or that is authorized by the Regents of the University of California or by the Trustees of the California State University, or that is approved by the Board of Registered Nursing.

(g) "Programs that train registered nurses" means a program that is operated by a California school of nursing and approved by the Board of Registered Nursing, or that is authorized by the Regents of the University of California, the Trustees of the California State University, or the Board of Governors of the California Community Colleges, and that is approved by the Board of Registered Nursing.

(h) "Teaching health center" means a community-based ambulatory patient care center that operates a primary care residency program. Community-based ambulatory patient care settings include, but are not limited to, federally qualified health centers, community mental health centers, rural health clinics, health centers operated by the Indian Health Service, an Indian tribe or tribal organization, or an urban Indian
§128207. Any reference in any code to the Health Manpower Policy Commission is deemed a reference to the California Healthcare Workforce Policy Commission.

   (6) One representative of trainees in a primary care physician's assistant program or a practicing physician's assistant.
   (7) One representative of trainees in a primary care nurse practitioners' program or a practicing nurse practitioner.
   (8) One representative of the Office of Statewide Health Planning and Development, from nominees submitted by the office director.
   (9) One representative of practicing registered nurses.

(b) Two consumer representatives of the public who are not elected or appointed public officials, one appointed by the Speaker of the Assembly and one appointed by the Chairperson of the Senate Committee on Rules.

(c) Two representatives of practicing registered nurses, one appointed by the Speaker of the Assembly and one appointed by the Chairperson of the Senate Committee on Rules.

(d) Two representatives of students in a registered nurse training program, one appointed by the Speaker of the Assembly and one appointed by the Chairperson of the Senate Committee on Rules.
(e) The Deputy Director of the Healthcare Workforce Development Division in the Office of Statewide Health Planning and Development, or the deputy director's designee, shall serve as executive secretary for the commission.

§128220. The members of the commission, other than state employees, shall receive compensation of twenty-five dollars ($25) for each day's attendance at a commission meeting, in addition to actual and necessary travel expenses incurred in the course of attendance at a commission meeting.

§128224. The commission shall identify specific areas of the state where unmet priority needs for dentists, physicians, and registered nurses exist.

§128225. The commission shall do all of the following:
   (a) Identify specific areas of the state where unmet priority needs for primary care family physicians and registered nurses exist.
   (b) (1) Establish standards for primary care and family medicine training programs, primary care and family medicine residency programs, postgraduate osteopathic medical programs in primary care or family medicine, and primary care physician assistants programs and programs that train primary care nurse practitioners, including appropriate provisions to encourage primary care physicians, family physicians, osteopathic family physicians, primary care physician's assistants, and primary care nurse practitioners who receive training in accordance with this article and Article 2 (commencing with Section 128250) to provide needed services in areas of unmet need within the state. Standards for primary care and family medicine residency programs shall provide that all of the residency programs contracted for pursuant to this article and Article 2 (commencing with Section 128250) shall be approved by the Accreditation Council for Graduate Medical Education’s Residency Review Committee for Family Medicine, Internal Medicine, Pediatrics, or Obstetrics and Gynecology. Standards for postgraduate osteopathic medical programs in primary care and family medicine, as approved by the American Osteopathic Association Committee on Postdoctoral Training for interns and residents, shall be established to meet the requirements of this subdivision in order to ensure that those programs are comparable to the other programs specified in this subdivision. Every program shall include a component of training designed for medically underserved multicultural communities, lower socioeconomic neighborhoods, or rural communities, and shall be organized to prepare program graduates for service in those neighborhoods and communities. Medical schools receiving funds under this article and Article 2 (commencing with Section 128250) shall have programs or departments that recognize family medicine as a major independent specialty. Existence of a written agreement of affiliation or association between a hospital and an accredited medical school shall be regarded by the commission as a favorable factor in considering recommendations to the director for allocation of funds appropriated to the state medical contract program established under this article and Article 2 (commencing with Section 128250). Teaching health centers receiving funds under this article shall have programs or departments that recognize family medicine as a major independent specialty.
(2) For purposes of this subdivision, "primary care" and "family medicine" includes the general practice of medicine by osteopathic physicians.

(c) Establish standards for registered nurse training programs. The commission may accept those standards established by the Board of Registered Nursing.

(d) Review and make recommendations to the Director of the Office of Statewide Health Planning and Development concerning the funding of primary care and family medicine programs or departments and primary care and family medicine residencies and programs for the training of primary care physician assistants and primary care nurse practitioners that are submitted to the Healthcare Workforce Development Division for participation in the contract program established by this article and Article 2 (commencing with Section 128250). If the commission determines that a program proposal that has been approved for funding or that is the recipient of funds under this article and Article 2 (commencing with Section 128250) does not meet the standards established by the commission, it shall submit to the Director of the Office of Statewide Health Planning and Development and the Legislature a report detailing its objections. The commission may request the Office of Statewide Health Planning and Development to make advance allocations for program development costs from amounts appropriated for the purposes of this article and Article 2 (commencing with Section 128250).

(e) Review and make recommendations to the Director of the Office of Statewide Health Planning and Development concerning the funding of registered nurse training programs that are submitted to the Healthcare Workforce Development Division for participation in the contract program established by this article. If the commission determines that a program proposal that has been approved for funding or that is the recipient of funds under this article does not meet the standards established by the commission, it shall submit to the Director of the Office of Statewide Health Planning and Development and the Legislature a report detailing its objections. The commission may request the Office of Statewide Health Planning and Development to make advance allocations for program development costs from amounts appropriated for the purposes of this article.

(f) Establish contract criteria and single per-student and per-resident capitation formulas that shall determine the amounts to be transferred to institutions receiving contracts for the training of primary care and family medicine students and residents and primary care physician's assistants and primary care nurse practitioners and registered nurses pursuant to this article and Article 2 (commencing with Section 128250), except as otherwise provided in subdivision (d). Institutions applying for or in receipt of contracts pursuant to this article and Article 2 (commencing with Section 128250) may appeal to the director for waiver of these single capitation formulas. The director may grant the waiver in exceptional cases upon a clear showing by the institution that a waiver is essential to the institution's ability to provide a program of a quality comparable to those provided by institutions that have not received waivers, taking into account the public interest in program cost-effectiveness. Recipients of funds appropriated by this article and Article 2 (commencing with Section 128250) shall, as a minimum, maintain the level of expenditure for family medicine or primary care physician's assistant or family care nurse practitioner training that was provided by the recipients during the 1973-74 fiscal
Recipients of funds appropriated for registered nurse training pursuant to this article shall, as a minimum, maintain the level of expenditure for registered nurse training that was provided by recipients during the 2004-05 fiscal year. Funds appropriated under this article and Article 2 (commencing with Section 128250) shall be used to develop new programs or to expand existing programs and shall not replace funds supporting current family medicine or registered nurse training programs. Institutions applying for or in receipt of contracts pursuant to this article and Article 2 (commencing with Section 128250) may appeal to the director for waiver of this maintenance of effort provision. The director may grant the waiver if he or she determines that there is reasonable and proper cause to grant the waiver.

(g) (1) Review and make recommendations to the Director of the Office of Statewide Health Planning and Development concerning the funding of special programs that may be funded on other than a capitation rate basis. These special programs may include the Development and funding of the training of primary health care teams of primary care and family medicine residents or primary care or family physicians and primary care physician assistants or primary care nurse practitioners or registered nurses, undergraduate medical education programs in primary care or family medicine, and programs that link training programs and medically underserved communities in California that appear likely to result in the location and retention of training program graduates in those communities. Training institutions may elect to commingle grant funds received pursuant to the Agreement with any other income available for operation of the nursing education program provided that the institution maintains such written fiscal control and accounting procedures as are necessary to assure proper disbursement of, and accounting for, such commingled funds, including provisions for:

a. The accurate and timely separate identification of funds received;

d. The training institution shall preserve and make available its records (a) for a period of three years from the date of final payment under this Agreement, and (b) for such longer period, if any, as is required by applicable statute, by any other clause of this Agreement, or by subparagraph (i) or (ii) below:

H. Budget Contingency Clause:

1. It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement shall be of no further force and effect. In this event, OSHPD shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Agreement.

2. If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this Program, OSHPD shall have the option to either cancel this Agreement with no liability occurring to OSHPD or offer an agreement amendment to Grantee to reflect the reduced amount.

I. General Terms and Conditions:

1. Timeliness: Time is of the essence in this Agreement. Grantee will submit the required deliverables as specified and adhere to the deadlines as specified in this Agreement. Anticipating potential overlaps, conflicts, and scheduling issues, to adhere to the terms of the Agreement, is the sole responsibility of the Grantee.

2. Final Agreement: This Agreement, along with the Grantee's Application, exhibits, and forms constitutes the entire and final agreement between the parties and supersedes any and all prior oral or written agreements or discussions.

3. Ownership and Public Records Act: All reports and the supporting documentation and data collected during the funding period which are embodied in those reports, shall become the property of the State and subject to the Public Records Act.

4. Audits: The Grantee agrees that OSHPD, the Department of General Services, the State Auditor, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Agreement. The Grantee agrees to maintain such records for possible audit for a minimum of three years after final payment, unless a longer period of records retention is stipulated by the State. The Grantee agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, the Grantee agrees to include a similar right of the State to audit records and interview staff in any subcontract related to performance of this Agreement.

5. Independence from the State: Grantee and the agents and employees of Grantee, in the performance of this Agreement, shall act in an independent capacity and not as officers or employees or agents of the State.

a. During the performance of this Agreement, Grantee and its subcontractors shall not deny the Agreement’s benefits to any person on the basis of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status, nor shall they discriminate unlawfully against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. Grantee shall ensure that the evaluation and treatment of employees and applicants for employment are free of such discrimination.

Code Regs., tit. 2, §11000 et seq.), the provisions of Article 9.5, Chapter 1, Part 1, Division 3, Title 2 of the Government Code (Gov. Code §§11135-11139.5), and any regulations or standards adopted by OSHPD to implement such article.

c. Grantee shall permit access by representatives of the Department of Fair Employment and Housing and OSHPD upon reasonable notice at any time during the normal business hours, but in no case less than 24 hours’ notice, to such of its books, records, accounts, and all other sources of information and its facilities as said Department or OSHPD shall require to ascertain compliance with this clause.

d. Grantee and its subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement.

e. Grantee shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform work under this Agreement.

7. Waiver: The waiver by OSHPD of a breach of any provision of this Agreement by the Grantee will not operate or be construed as a waiver of any other breach. OSHPD expressly reserves the right to disqualify Grantee from any future grant awards for failure to comply with the terms of this Agreement.

8. Approval: This Agreement is of no force or effect until signed by both parties. Grantee may not commence performance until such approval has been obtained.
9. Amendment: No amendment or variation of the terms of this Agreement shall be valid unless made in writing, signed by the parties and approved as required. No oral understanding or Agreement not incorporated in the Agreement is binding on any of the parties.

10. Assignment: This Agreement is not assignable by the Grantee, either in whole or in part, without the consent of the State in the form of a formal written amendment.

11. Indemnification: Grantee agrees to indemnify, defend and save harmless the State, its officers, agents and employees (i) from any and all claims and losses accruing or resulting to any and all Grantee’s, subcontractors, suppliers, laborers, and any other person, firm, or corporation furnishing or supplying work services, materials, or supplies resulting from the Grantee’s performance of this Agreement, and (ii) from any and all claims and losses accruing or resulting to any person, firm, or corporation who may be injured or damaged by Grantee in the performance of this Agreement.

12. Disputes: Grantee shall continue with the responsibilities under this Agreement during any dispute. Any dispute arising under this Agreement, shall be resolved as follows:

a. The Grantee will discuss the problem informally with the Song-Brown Program Manager. If unresolved, the problem shall be presented, in writing, to the Deputy Director stating the issues in dispute, the basis for the Grantee’s position and the remedy sought. Grantee shall include copies of any documentary evidence and describe any other evidence that supports its position with its submission to the Deputy Director.

b. Within ten working days after receipt of the written grievance from the Grantee, the Deputy Director or their designee shall make a determination and shall respond in writing to the Grantee indicating the decision and reasons for it.

c. Within ten working days of receipt of the Deputy Director’s decision, the Grantee may appeal the decision of the Deputy Director by submitting a written appeal to the Chief Deputy Director stating why the Grantee does not agree with the Deputy Director’s decision. The Chief Deputy Director or their designee (who shall not be the Deputy Director or their designee) shall meet with the Grantee within 20 working days of receipt of the Grantee’s appeal. During this meeting, the Grantee and OSHPD may present evidence in support of their positions.

d. Within ten working days after meeting with the Grantee, the Chief Deputy Director or their designee shall respond in writing to the Grantee with their decision. The Chief Deputy Director’s decision will be final.
13. Termination for Cause: OSHPD may terminate this Agreement and be relieved of any payments should the Grantee fail to perform the requirements of this Agreement at the time and in the manner herein provided. Grantee shall return any Agreement Funds that were previously provided to Grantee for use after the termination date.

If all grant funds have not been expended upon completion of the Agreement term, OSHPD will request the remittance of all unexpended funds. If OSHPD determines that improper payments have been made to Grantee, OSHPD will request disgorgement of all disallowed costs. Grantee may dispute disallowed costs in accordance with Section J, Paragraph 12. Grantee will submit a check or warrant for the amount due within 60 days of the Grantee’s receipt of OSHPD’s disgorgement request or 30 days from the Grantee’s receipt of OSHPD’s last Dispute decision. If Grantee fails to remit payment, OSHPD may withhold the amount due from any future grant payments.

14. Grantee’s Subcontractors: Nothing contained in this Agreement shall create any contractual relationship between the State and the Grantee or any subcontractors, and no subcontract shall relieve the Grantee of its responsibilities and obligations hereunder. The Grantee agrees to be as fully responsible to the State for any and all acts and omissions of its subcontractors and of persons either directly or indirectly employed by the Grantee. The Grantee’s obligation to pay its subcontractors is an independent obligation from State’s obligation to disburse funds to the Grantee. As a result, the State shall have no obligation to pay or to enforce the payment of any money to any subcontractor.

15. Governing Law: This Agreement is governed by and shall be interpreted in accordance with the laws of the State of California.

16. Unenforceable Provision: In the event that any provision of this Agreement is unenforceable or held to be unenforceable, then the parties agree that all other provisions of this Agreement have force and effect and shall not be affected thereby.

17. Use of Funds: The funding established pursuant to this act shall be utilized to expand primary care services. These funds shall not be used to supplant existing state or local funds to provide primary care services.
