To Whom It May Concern:

The percent change in gross revenue due to changes in Chargemaster pricing for the 2017-2018 fiscal year to our facility is 4.5%.

The methodology used to arrive at this percent change was to divide actual YTD gross charges per department by the volume percent increase for that department and sum the adjusted totals. This methodology takes into account changes in utilization.

The only new service is the addition of a bone densitometer machine, which was 0.14% of total charges.

Sincerely,
