HEALTH FACILITY CHECKLIST
SECTION 1226 [OSHPD 3] CLINICS

1226.6 PRIMARY CARE CLINICS

Primary Care Clinics are Health Facilities licensed under Section 1200 of the California Health & Safety Code that provide services limited to those listed in California Building Code Section 1226.6. Outpatient clinical services of a hospital providing services, licensed under Section 1250 of the California Health & Safety Code, which are equivalent to a primary care clinic, shall also comply with California Building Code Section 1226.6 and be considered a primary care clinic. Primary care clinics are subject to the provisions of Section 1226 [OSHPD 3] CLINICS, of the California Building Code and all amendments to the California Building Standards Code (CBSC) under the banner [OSHPD 3]. OSHPD requirements apply to all facilities described above and are not dependent upon Occupancy Group designations.

While Examination Rooms are required in Primary Care Clinics, the provision of Treatment Rooms is optional and dependent upon the intended delivery of care. Examination Rooms are intended for diagnostic examinations, where Treatment Rooms are intended for clinical/interventional procedures and include appropriate size and finish requirements to accommodate treatment/procedures that do not require a restricted (sterile) environment but may use sterile instruments or equipment.

All new buildings and additions, alterations or repairs to existing buildings, and conversion of space to a clinic use within existing buildings, subject to Licensing and Certification, California Department of Public Health, shall comply with applicable provisions of the California Building Code (CBC), California Electrical Code (CEC), California Mechanical Code (CMC), California Plumbing Code (CPC), California Energy Code, California Green Building Standards Code and California Fire Code (Parts 2, 3, 4, 5, 6, 9, and 11 of Title 24). The enforcing agency for primary care clinics is the local building department. Note: Existing clinic facilities that have architectural conditions, such as room size or corridor width, that fail to meet the requirements of OSHPD-3 but were compliant at the time of their construction may be considered acceptable.

EFFECTIVE USE OF THE CHECKLIST

The following checklist is intended to be used in the plan review of applications for health care facilities located in California. The checklist summarizes and references the applicable requirements from the Office of Statewide Health Planning and Development (OSHPD) as adopted and amended to the California Building Standards Code. Applicants should verify compliance of the plans submitted for building permit with all referenced requirements from OSHPD when completing this checklist. The checklist should be completed by the project architect or engineer based on the design actually reflected in the plans at the time of completion of the checklist.

This checklist only references OSHPD requirements associated with primary care clinics. Please note that other jurisdictions, regulations and codes have additional requirements which are not included in this checklist, such as: other applicable provisions of the CBSC and amendments enforced by the local authority having jurisdiction; regulations enforced by the local health department; CEQA, local ordinances and conditions of approval enforced by the local planning department; requirements of the local fire department; requirements and design standards of the local public works department; and any other agency that may have jurisdictional authority over an aspect of the project. The applicant and design professional are encouraged to exercise appropriate due diligence that would be associated with embarking on any construction project.
If a clinical space is being reused under a new tenant/owner, existing non-OSHPD-3 architectural dimensional requirements that were compliant at the time of construction may remain as-is if the use does not change. Examples of this would be exam rooms size or corridor width. If these were compliant with the building code at the time they were constructed, and the use of the room or area is not changing, an increase in size or width would not be required.

If existing ceiling heights are greater than 7'-6" and it is infeasible to raise the ceiling, it may remain as is.

With the implementation of electronic records, the requirement for a dedicated space for storage and sorting of records may be shared with other workstations that may have other functions.
### ARCHITECTURAL REQUIREMENTS

**1226.6**

**Primary Care Clinic**

- Clinic licensed by CDPH under CH&S Section 1200 or Section 1250

**1226.6.1**

**Examination and treatment areas**

**1226.6.1.1** **Examination rooms**

1224.4.4.1.1 Space requirements

- 80 sf min clear floor area, exclusive of
  - Fixed or wall-mounted cabinets, built-in shelves; and
  - Alcoves with a dimension of less than 8’, anterooms or vestibules
  - 8’ minimum clear dimension, clear of cabinets, etc.

11B-404.2.4 "60" maneuvering clearance inside the room, perpendicular to the door
- "18" min clearance beyond latch side of the door

11B-805.4.1 "36" wide clear space along at least one side of the exam table

11B-805.4.3 "Clear turning space may be either:

- 60" diameter circle; or
- "T" shape within a 60" square w/ arms and base with 36" min width

**1226.6.1.1** **Required fixtures**

1224.4.4.1.1 Accommodation for written or electronic documentation

- Handwashing Station w/ following clearances:
  - "30" x 48" clear space centered on fixture
  - "9" high toe clearance under counter/fixture;
  - 19” min depth;
  - "29" high knee space under counter/fixture;

11B-306.2

- 8” min depth @ 29” high;
- 11” min depth @ 9” high;
- clearance reduction between 29” & 9” at 1:6

1224.11 Interior Finishes & Table

- Pin perforated, fine fissured, or lightly textured ceiling; washable walls; carpet permissible upon agency approval

**1224.4.10 Ceiling height**

- 8’ minimum – see note in narrative
- Ceiling height shall accommodate ceiling-mounted equipment & fixtures
- * see accessibility requirements

### PLUMBING/MECHANICAL/ ELECTRICAL REQUIREMENTS

**Plumbing***:

- Handwashing fixture located in exam room, convenient for use by staff entering & leaving room
- Wrist/elbow blades are permitted
- ABS & PVC drainage piping are not permitted

**Mechanical***:

- Ventilation: Neutral pressure balance at corridor
- Min 6 air changes/hr OSA
- Min 6 air changes/hr total
- (2) Filter banks 30% & 90%

**Other OSHPD 3 requirements**

- Space above a ceiling may not be utilized as an exhaust-air, or return-air plenum
- Concealed building spaces/ independent construction within buildings may not be used as ducts or plenums
- Flexible ducts may not exceed 10 feet
- Use of CPVC is not permitted for building water supply piping
- OSHPD 3 disinfection procedures for potable water system is required
- Secondary (redundant) water heater is required
- Vent pipe termination 25’ min from any air intake or vent shaft – 10’ if previously licensed facility

**Electrical***:

- General illumination: 50 fc @ 36” min
- Metallic raceway or cable with metal sheath qualified as a ground conductor
- Insulated copper grounding conductor
- GFCI at receptacles <6’ from sink

* Common requirements for all exam rooms
### ARCHITECTURAL REQUIREMENTS

**1226.6.1.2 Treatment rooms** (when provided)

Revision 3/04/21
ARCHITECTURAL REQUIREMENTS

1226.6.2 Support areas for exam/treatment rms
   General
   1224.4.7.3  ___ 60” min corridor if treatment rms incl or
   ___ 44” min corridor if exam rms only
   1224.10  ___ 8’ min ceiling height

1226.6.2.1 Administrative Center / Nurse Station
   ___ Counter space
   11B-904.4  ___ 28” min, 34” max, high work surface
   ___ 36” min wide x 34” max high
   ___ assessable transaction top
   1226.4.13.1  ___ Storage space
   ___ Access to handwashing fixture
   ___ Reception/charting/communication

1226.6.2.2 Medication station
   ___ Directly accessible from Nurse Sta.
   1226.4.13.2.1  ___ Counter w/ handwashing station
   ___ Prep sink
   ___ Lockable refrigerator
   ___ Lockable storage for controlled Rx
   Or
   1226.4.13.2.2  ___ Self-contained dispensing unit
   ___ Located in the nurse station, or
   ___ Located in the clean utility room

1226.6.2.3 Clean utility room
   ___ Counter w/ handwashing station
   ___ Clean & sterile storage
   Or
   ___ Clean holding room

1226.6.2.4 Soiled workroom
   ___ Counter w/ handwashing station
   1226.4.13.4  ___ Flushing-rim clinical sink, or
   ___ Utility/service sink
   ___ Covered soiled linen area
   ___ Covered waste storage area
   Or
   ___ Soiled holding room
   ___ Covered soiled linen
   ___ Covered waste storage
   ___ Bed-pan washing at patient toilet

PLUMBING/MECHANICAL/ ELECTRICAL REQUIREMENTS

Mechanical:  CMC
   ___ Min 2 air changes/hr OSA
   ___ Min 4 air changes/hr total
   ___ (1) Filter bank 30%

Plumbing:  CPC
   ___ Handwashing fixture
   Table 4-2

Lighting:  IESNA
   ___ Task lighting as required

Power:
   ___ Min: 1 receptacle
ARCHITECTURAL REQUIREMENTS

1226.6.3 Support areas for patients

1226.6.3.1 Patient toilet room(s)
___ Shall be provided separate from public use and be located for access from patient care areas without passing through publicly accessible areas, or
___ May serve outpatient waiting rooms in clinics with a maximum of three exam &/or treatment rooms
___ Each toilet room shall include the following:
   ___ Fully accessible water closet
   ___ Fully accessible lavatory
   ___ 7’ min ceiling height
   ___ 5” min coved base for resilient floors

1226.6.3.2 Specimen and/or blood collection
When provided:
___ Space for a chair and work counter shall be provided for blood draw
___ Handwashing station is required
___ Use of the patient toilet room is permitted for specimen collection
___ Handwashing station is required
___ Lab pass-thru must be accessible

PLUMBING/MECHANICAL/ELECTRICAL REQUIREMENTS

Plumbing:
___ Handwashing fixture located in patient toilet room, conventional spouts & controls acceptable, aerators are not permitted
___ Toilet may be equipped with bedpan washing device

Mechanical:
___ Ventilation: 100% exhaust
___ 10 min air changes per hour

1226.6.4 General support services

1226.6.4.1 Garbage / medical waste / trash
1226.4.9.2___ Lockable room or screened enclosure
___ 25 sf minimum floor area
___ 4 foot minimum dimension
___ Concrete floor & curb w/ drain to sewer
___ Steam/hot water & cold water supplies

Or

1226.4.9.3___ Waste holding room
___ 25 sf minimum floor area
___ 4 foot minimum dimension
___ Convenient access to exterior
___ 5” min coved base for resilient floors

1226.6.4.2 Housekeeping room
1224.4.15___ Minimum floor area of 15 sf
___ Service sink or
___ Floor receptor
___ Storage of supplies & housekeeping equipment

Plumbing:
___ Steam/hot water & cold water supplies

Mechanical:
___ Ventilation: 100% exhaust
___ 10 min air changes per hour

CPC Table 4-2
CMC Table 4-A
## ARCHITECTURAL REQUIREMENTS

### 1226.6.5 Public and administrative areas

#### 1226.6.5.1 Public area

**1226.6.5.1.1 Reception**

- Reception/information counter or desk shall be provided
- **28” min, 34” max, high work surface**
- **36” min wide x 34” max high accessible transaction top**

**1226.5.1.2 Outpatient waiting room**

- Provide seating area and space for wheelchairs, and have public corridor access to, or provision of:
  - **Public toilet(s)**
  - **Separate accessible men’s and women’s toilet rooms, Or**
  - **Single toilet shared by both sexes if occupant load is 10 or fewer, Or**
  - **Served by patient toilet if clinic has 3 or fewer exam rooms**
- **Accessible hi & low drinking fountain**
- **Telephone available to the public**
  - **30”x48” clear floor space**
  - **Reach range per 11B.308**
  - **29” min cord length**
  - **Volume control**

**1226.6.5.2 Administrative services**

**1226.6.5.2.1 Medical records storage**

Produce a health record service that includes:
- **Accessible work area for sorting and recording paper or electronic media**
- **Record storage area for paper or electronic media**

**1226.6.5.2.2 Equipment and supply storage**

**General storage for office supplies and equipment**

### 1226.6 Support areas for staff

**1226.6.1 Staff toilet room(s)** — provide as follows:

- **Male staff @ 1:1-15, and Female staff @ 1:1-15, Or**
- **Single toilet if less than 5 staff**
- **Separate from patients & visitors**

Each toilet room shall contain:
- **Handwashing fixture, Water closet, and Be fully accessible**

### PLUMBING/MECHANICAL/ELECTRICAL REQUIREMENTS

**1226.6.6.1 Staff toilet room(s)** — provide as follows:

**Plumbing:**
- Handwashing fixture located in each staff toilet room, conventional spouts & controls acceptable, aerators are not permitted

**Mechanical:**
- **Ventilation: 100% exhaust**
- **10 min air changes per hour**

**CPC Table 4-2**

**CMC Table 4-A**

**CMC Table 4-B**
ARCHITECTURAL REQUIREMENTS

1226.6.6 Support areas for staff (continued)

1226.6.6.2 Storage for employees
Provide storage for staff personal effects
- Locking drawers or cabinets
Note: desk/workstation drawers or cabinets are acceptable
- Located convenient to individual workstations and shall be staff controlled

Supplemental (when provided)

1226.4.1.4 Airborne infection isolation exam room
1224.4.4.1.1 Capacity – one exam table
- Labeled “Airborne infection room”
- Handwashing station
- Gowning area & storage of clean and soiled materials located directly outside or inside the entry door
- Doors – self-closing with latching devices
- Sealed-tight to minimize air infiltration from the outside or other spaces
  - Floors
  - Perimeter walls
  - Ceilings
  - Doors
  - Penetrations
- Seamless flooring with integral coved base
- Smooth, easily cleanable ceiling without perforations or fissures
- 8’ minimum ceiling height

Plumbing:
- Handwashing fixture located in patient room, convenient for use by staff entering & leaving room

Mechanical:
- Ventilation: Negative pressure
  - 100% exhaust
  - Min 2 air changes/hr OSA
  - Min 12 air changes/hr total
  - Min 12 air changes /100% OSA
  - (2) Filter banks 30% & 90%

Lighting:
- General: 30 ft-candles @ 30” min
- Task lighting

Power:
- Min of 1 receptacle at exam table

1224.4.4.1.1.1 Airborne infection isolation exam room anteroom
An anteroom is not required, however when provided it shall comply with the following:
- Space to don personal protective equipment before entering the patient room
- All doors shall have self-closing devices
- Provide storage of personal protective equipment (e.g. respirators, gowns, gloves) and clean equipment

Mechanical:
- Ventilation: Positive pressure
  - 100% exhaust
  - Min 2 air changes/hr OSA
  - Min 10 air changes/hr total
  - Min 10 air changes /100% OSA
  - (2) Filter banks 30% & 90%
### ADDITIONAL REQUIREMENTS FOR DENTAL SERVICES (when provided)

#### ARCHITECTURAL REQUIREMENTS

**1226.6.1** **Examination/Treatment area**

*Common requirements for all dental exam and treatment rooms*
**ARCHITECTURAL REQUIREMENTS**

**1226.6.1.3.2 Pediatric patients**
- At least one private consultation/treatment room shall be provided when pediatric patients are treated.

**1226.6.1.3.4 Imaging**
- When imaging is provided, the following is required:
  - Space for a dental panographic x-ray system and printer; and

**1226.5.5.2**
- Shielding requirements; and

**1224.18.1.1**
- Alcove requirements

**1226.6.1.4 Oral surgery**
- When provided, treatment areas for procedures for which general anesthesia is used on more than 5 patients at a time shall comply with the requirements in Section 1226.8

**Support areas for dental exam rooms**

**1226.6.2.5 Consultation room**
- Dental facilities must provide a consultation room for private conferences with patients.

**1224.2**
- 70 sq. ft. minimum room with a door.

**11B-306.2**
- "60" maneuvering clearance inside the room, perpendicular to the door
- "18" min clearance beyond latch side of the door
- "Clear turning space may be either:
  - 60" diameter circle; or
  - "T" shape within a 60" square w/arms and base with 36" min width

**11B.306.2**
- *See common requirements for all exam rooms.

**1226.6.2.6 Sterilization facilities**
- When sterilization facilities are provided, the following is required:

**1226.6.2.6.1 Decontamination area:**
- Countertop (separated from clean countertop by 4’ minimum);
- Instrument washing sink (separated from clean area by 4’ minimum or 4’ min high screen);
- * Accessible handwashing fixture separate from instrument sink;
- Storage for supplies

**1226.6.2.6.2 Clean work area:**
- Countertop (separated from clean countertop by 4’ minimum);
- Sterilization equipment, as required for service provided;
- * Accessible handwashing fixture (may share with decontamination)
- Storage for supplies

**PLUMBING/MECHANICAL/ELECTRICAL REQUIREMENTS**

**Mechanical:**
- Ventilation: Neutral pressure balance at corridor
- Min 2 air changes/hr OSA
- Min 6 air changes/hr total
- (2) Filter banks 30% & 90%

**Lighting:**
- General: 30 ft-candles @ 30” min

**Mechanical - Decontamination:**
- Ventilation: Negative pressure 100% exhaust
- Min 2 air changes/hr OSA
- Min 4 air changes/hr total
- (2) Filter banks 30% & 90%

**Mechanical – Clean work area:**
- Ventilation: Positive pressure
- Min 2 air changes/hr OSA
- Min 4 air changes/hr total
- (2) Filter banks 30% & 90%

**Plumbing:**
- Instrument washing sink
- Handwashing fixture
- Wrist/elbow blades are permitted
- ABS & PVC drainage piping are not permitted
- General: 30 ft-candles @ 30” min

**Power:**
- Min of 1 recept. at work counter

**Table 4-A**

**Table 4-B**

**CMC**

**IESNA**
* See accessibility requirements

**ARCHITECTURAL REQUIREMENTS**

1226.6.2 Support areas for dental exam rooms

1226.6.2.7 **Laboratory**

Facilities for laboratory services shall be provided in dental facilities or through a contract arrangement with a laboratory service. When provided on site, the following is required:

- **Work area:**
  - Work counter;
  - Laboratory sink;
  - Tele/data service; and
  - Electrical service

- **Handwashing Station w/ the following:**
  - "30" x 48" clear space centered on fixture
  - "9" high toe clearance under counter/fixture;
  - 19" min depth;
  - "29" high knee space under counter/fixture;
  - 8" min depth @ 29" high;
  - 11" min depth @ 9" high, clearance reduction between 29" & 9" at 1:6

- Storage for supplies

* See accessibility requirements

**PLUMBING/MECHANICAL/ELECTRICAL REQUIREMENTS**

Plumbing:

- Sink

- Handwashing fixture located in the laboratory, convenient for use by staff entering & leaving room

- Wrist/elbow blades are permitted

- ABS & PVC drainage piping are not permitted

Mechanical:

- Ventilation: Negative pressure balance at corridor

- Min 2 air changes/hr OSA

- Min 6 air changes/hr total

- (2) Filter banks 30% & 90%

Lighting:

- General: 30 ft-candles @ 30" min

- Task illumination as required

Power:

- Min of 1 receptacle at work counter

* See accessibility requirements
